Montclair Weston Health Internship Program

Rising Seniors apply in February of Junior year to participate in a 2 week internship program shadowing doctors in different departments at Hackensack Meridian Mountainside Medical Center.

Selection of participants must complete two rounds of interviews.

Final selection will be determined by the doctors and staff at Mountainside Medical Center.

Northeast Carpenters Apprenticeship Program

Career Connections

- Four year program designed to help students develop knowledge, skill, and experience in carpentry.
- Students that participate and pass the end of program assessment get a jump-start into career within the construction trades and an opportunity for possible advanced placement in an apprenticeship program.

We are so excited for the students participating in these programs and look for them to grow in the coming years!
